## Supported by:

Department of Research Methods and  
Diagnosis in Education

Faculty of Pedagogy  
University of Barcelona  
Mundet Campus

[www.simref.net](http://www.simref.net)

with a double objective:

- To interrogate the potentialities and limits of feminist researches as to represent a new paradigm for the analysis of reality in different disciplines.
- To formalise a training area on feminist methodologies at the forefront of the international debate, and to improve the autochthonous feminist research.

## Objectives

1. To know in depth some feminist methodologies, providing rigorous knowledge about their possible applications.
2. To reflect on the way feminist research needs to be included into different academic disciplines.
3. To train researchers in the field of feminist methodology.
4. To provide a space to exchange ideas and knowledge for young researchers who are working on their dissertations and researches, and who want to incorporate a feminist perspective in their work.
5. To help the communication and exchange of opinions among research professionals in order to produce collective knowledge and create social networks.

## Syllabus

## LECTURES

### 7th November 2008

**Barbara Biglia** (UB)

From the debate on the object and the subject of science to adopting the feminist methodology.

### 28th November 2008

**Maria Puig de la Bellacasa** (ULB)

Feminist Epistemology: situated knowledge in greater depth.

### 27th February 2009

**Isabel López** (US)

Narrative as a tool for the feminist research-action.

### 27th March 2009

**Nirmal Puwar** (Gold)

In the Space of Feminist Work: the movement between qualitative research, art and film.

### 29th May 2009

**Marta Luxan Serrano** (UPV)

What does the statistic veil hide? A feminist reflection around the design and use of social data sources.

### 26th June 2009

**Erica Burman** (MMU)

Feminist approaches to discourse analysis.

## RESEARCH WORKSHOPS

*The number of participants is limited.*

**Dates:** 8th November; 29th November; 28th February; 28th March, 30th May; 27th June

**Type:** Such sessions are meant to provide the opportunity to present and discuss, in small groups, some of the aspects of your research project, whether already terminated, in progress or still at a drafting stage. Alongside professors and lecturers invited, at least one member of the seminar organising committee will participate in each workshop in the role of mediator/supervisor, contributing her/his expertise as methodological considerations applied to the proposals made.

## VIRTUAL PLATFORM

A virtual platform within the UB campus will be available throughout the seminar, as a further learning tool.

## Certification

*Everyone enrolled and attending at least 80% of the SIMReF sessions, will receive an Attendance Certificate issued by the University of Barcelona and awarded by the ICE Research Department. For more information, please check on the website.*
